

Swiss Deeptech Scale-up Fund

From Swiss Innovation
to Global Scale-up

Deeptech is defined as : **Novel Scientific or Engineering Breakthroughs**

Characterized by

Scientific and Engineering Foundations:

Deep tech is built on years of research in domains like physics, chemistry, and biology.

High Barrier to Entry:

The complexity and specialized knowledge make it difficult for competitors to enter the space.

Longer Development Cycles:

Companies often require extensive testing and validation before reaching commercial viability.

Potential for Disruption:

These groundbreaking technologies can transform entire industries, from healthcare to energy.

But First, DeepTech Primer

Definition : DeepTech **turns scientific discoveries and engineering innovation into products** that tackle society's biggest challenges. It has been **the foundation of venture capital** and a driver of regional sovereignty through transformative technology.

 **Daniel Borel** (Logitech co-Founder):
"Never forget, be Real: Success is never final. Innovate or Disappear. Never ever Give Up!"

SECTION 01

**Our Swiss startup
environment is
evolving.**

Switzerland : International DeepTech Powerhouse

World-class Swiss universities and research centers powering DeepTech innovation

50% Swiss in the Top 4 ranking universities in Europe by Deep Tech and Life Sciences spinout value created

- | | |
|--|--|
| #1  ETH Zurich | #6  University of Bristol |
| #2  University of Oxford | #7  DTU |
| #3  EPFL Lausanne | #8  Imperial College London |
| #4  TU Munich | #9  University College London |
| #5  University of Cambridge | #10  Aalto University |

Global tech leaders anchoring talent & growth in Switzerland

		Jobs
	ABB Robotics is the world’s second-largest industrial robot manufacturer	6,000
	Operates one of its largest engineering hubs outside the US	5,000 (+2,000 in AI)
	Announced \$400 million to expand its four data centers in Switzerland	1,000
	IBM Research – Zurich is one of IBM’s largest R&D centers	500
	Develops AI, GPU computing, and autonomous driving technologies	400
	European headquarters for research and innovationIn mid-2025,	400
	Meta hired key researchers from OpenAI’s Zurich team	180
	Disney Research Zurich focuses on visual computing and AI/ML,	100

 **Patrick Aebischer** (President emeritus of EPFL)
 “The EPFL start-up culture has blossomed during the last decade. Access to growth capital will lead to novel Swiss large companies creating value-added jobs.”

Seed Capital Built The Foundation — Now It's Time for Scale

Most Swiss VCs are new funds (I or II), focused on seed, leaving limited support for Swiss Scale-ups.

Switzerland creates the startups, but global capital scales them. It's time to change this!

Albert Einstein (ETH Zurich, Swiss citizen)
 “In the middle of every difficulty lies opportunity, but only for those who are willing to look beyond the problem and imagine a different outcome.”

SECTION 03

**Positioned to
back Switzerland's
most promising
scale-ups.**

We are Swiss Founders, Investors and Operators with Global Experience

Building on CHF120M of AUM and a strong Swiss DeepTech track record, **we launched the Swiss DeepTech Scale-up Fund with CHF30M raised at first closing in June 2026.**

Dominique Pitteloud 
Tech Expert
Co-Founder, Partner

- Led 20+ DeepTech investments
- IPO and public board experience
- Managed >100 engineers in Silicon Valley

Julien Monney 
Investor
Co-Founder, Partner

- Raised >\$200m for Scale-up investments
- Invested in liquid and private assets since 2004
- Connected founders with strategic partners

Maxime Droux 
Entrepreneur
Partner

- Serial entrepreneur with multiple exits
- Scaled and managed >100 Sales
- From \$0 to \$100m in revenues experience

Other team members

Céline Richa
Climb Ventures
Chairwoman

Chokri Bouzidi
Climb Partners GP Director
Tax & Legal

Ernesto Bertarelli (Biotech entrepreneur, Serono)

"The best investment is always in people — in their ideas, their energy, and their ambition."

Fund Strategy

🇨🇭 Switzerland is our home. We strengthen its innovation ecosystem and help build world-class champions for a new era of global leadership. Our CHF 100M fund backs Swiss DeepTech scale-ups.

First closing done with CHF 30M secured, first investment made in Corintis, an EPFL spinoff cooling AI chips from the inside.

🇨🇭 **Henri Nestlé** (Entrepreneur, founder of Nestlé)
“One must adapt products to the needs of people, not the other way around.”

Why we Deserve to Win the Deal

time—line

"We trust them for their expertise and specialized network to de-risk market entry and identify the right local partners."

Chris Rinsch

President & co-Founder, Timeline

"Climb established relationships for us with two listed U.S. strategic corporates and secured the lead investor for our Series A1."

Remco Van Erp

CEO & co-Founder, Corintis

Roger Federer (Tennis legend)

"A man who wins is a man who thinks he can."

Our Four Stars: Outsized Growth Since Investment

FINN

World's car subscription leader, on the road to IPO

13x **2.6x**

revenue growth
since investment

gross MOIC

€25M (2021) → €324M (2026E)

Key developments

- One of Europe's largest auto ABS programs
- Profitable on a net income basis since end of 2025

Timeline

The most clinically proven molecule in longevity

7x **2.2x**

revenue growth
since investment

gross MOIC

\$14.3M (2023) → \$105M (2026E)

Key developments

- Partnership with Lancôme (L'Oréal Group)
- Expanded into skincare and longevity supplements

Enpal

Europe's largest integrated home-energy platform

3.5x **1.3x**

revenue growth
since investment

gross MOIC

€382M (2022) → €1.35B (2026E)

Key developments

- First-ever European solar ABS, 6x oversubscribed
- Expanded into heat pumps, smart meters and VPP

Neo4j

The category leader of graph databases

3x **1.0x**

revenue growth
since investment

gross MOIC

\$92M (2021) → \$284M (2026E)

Key developments

- Used by 75% of Fortune 100 companies
- Partnerships with Google, Snowflake and Microsoft

**Thank you for your
trust.**
